

# Juan Jaiver Roa Gallego

Web Developer

**Location:** Armenia Q. Colombia

**Phone:** (57) 313 760 7965

**E-mail:** [juanjaroa@gmail.com](mailto:juanjaroa@gmail.com)

With over 9 years of experience in web development, I have acquired skills in both UI and UX to create the perfect frontend for websites that meet requirements. I am an expert in techniques such as Pixel Perfect and Responsive Design. Throughout my career, I have led projects in which I have translated designs from tools such as Photoshop, Illustrator, and Figma into HTML5. In addition to creating and managing websites on different platforms, I also have experience in creating mailing pieces and managing web hosting environments. Also, I can build Low Code solutions, which has allowed me to optimize the creation of web solutions without losing sight of the importance of user experience in every project.

## EXPERIENCE

### [Websiteness](#), Remote: *Wordpress Developer*

February 2024 - August 2025

I was part of a multicultural team based in Las Vegas, NV responsible for maintaining and supporting over 400 sites and developing new sites for US clients, including developing interfaces from scratch, fixing broken designs, optimizing for Google Page Speed Insights, and sanitizing malware.

### **EOS Technology**, Remote: *Frontend Developer*

May 2023 - October 2023

Member of the Frontend team responsible for designing interfaces of web applications in the Crypto sector. Throughout this process, I have been able to enhance my skills in Vue.js, and I have also gained extensive experience in Git and GitHub. I have contributed my expertise in Semantic HTML, design best practices, and the implementation of responsive techniques.

### [Webcat LLC](#), Remote: *Low Code Developer*

February 2022 - March 2023

In my role as a Low Code Developer, I have been responsible for building and implementing components, pages, and web applications based on the startup's roadmap using Webcat's page builder. Additionally, I have created user-focused materials, such as templates, and provided Low Code support to platform users' projects. Another responsibility of mine has been managing the hiring process for Frontend and Fullstack Developers, both for Webcat and the platform's clients. These processes have included generating job offers, reviewing applications, conducting interviews,

## TECHNICAL SKILLS

HTML, CSS, JavaScript

VueJs

Git, GitHub

PHP

Angular

jQuery

WordPress

Low code, No code

Illustrator

## SOFT SKILLS

Adaptability

Effective Communication

Teamwork

Problem Solving

Critical Thinking

Customer Orientation

Creativity

Empathy

Attention to Detail

## PROJECTS

reviewing technical tests, and mentoring during trial periods.

Through my experience at Webcat, I have developed leadership and team management skills, as well as technical skills in Low Code development and project management. Moreover, I have had the opportunity to work in a remote and collaborative environment, which has improved my ability to work autonomously and as part of a team.

### **Club Of Course, Remote: *Web Developer***

April 2021 - August 2021

As a Web Developer at Club Of Course, I contributed to the effort of rehabilitating the European tourism sector post-pandemic. During my time at the company, I developed two custom solutions in WordPress: the club's website and a digital networking card system.

### **Vatra Creative Group, Armenia: *Web Developer***

February 2016 - September 2021

Formerly known as Löhe, Vatra is an advertising agency focused on graphic design and branding. During my time at this agency, I held the position of Web Developer, providing technological advice, making decisions in the web sector, and solving problems in the area. In my role as a Web Developer, I learned Pixel Perfect and Responsive Design techniques due to the agency's 100% graphic nature. I was responsible for ensuring a perfect adaptation of designs from tools such as Photoshop, Illustrator, and Figma to HTML. Additionally, I worked on creating and managing websites on WordPress. My experience at Vatra Creative Group allowed me to improve my technical and creative skills in web design and development, as well as in decision-making and problem-solving.
